A New Circle of Impact

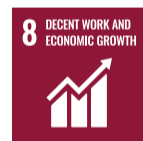

For Instance, if I invested 100,000 USD,

How many people can improve their poverty?

How many people can create educational opportunities?

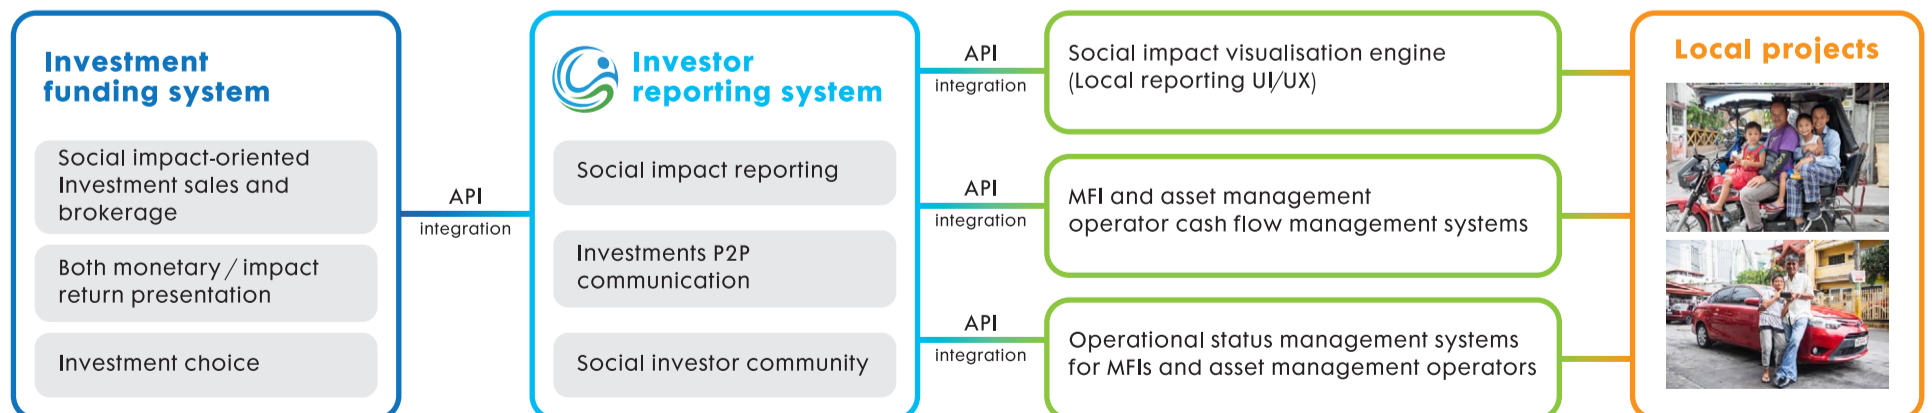

How much amount people can increase their income?

Investors clearly grasp and realize their social contribution.

Creating the connection between investors and investees' improvement of living.

Social Impact Visualisation Engine & Reporting System for Impact Investor

Timeliness and Interactivity

Providing the appropriate information and data to the investors.
 Enabling the communication between/amongst investors and investees.
